

## New Member Mentor Program

Our Goal: To help you get started in Flycasters and with fly fishing

Experienced members are available to help you get started in Flycasters, with fly fishing, meeting other members, getting involved in the club, and helping you feel more comfortable as a new Flycasters member.

These members have provided their contact information and offered to:

1. Answer questions about the club
2. Answer questions you might have about fly fishing
3. Identify what club activities are available with Flycasters
4. Introduce you to other members who like the same type of fly fishing you prefer (Salt water, Fresh water, Tying. Etc.)
5. Etc.....

Flycaster members are always willing to help new members get started but it is **your** responsibility to be proactive and take advantage of this program and the other activities offered by the club. We recommend that you introduce yourself to other members during the meetings and feel free to contact any of the members listed below with your questions.

Also, one of the best ways to get to know club members, quickly grow your skills, and find fishing partners is to become involved in the club by volunteering to help. Contact any of the officers or activity chairpersons if you want to become more involved in club activities. Any of the mentors below can also help with becoming more involved in club activities.
